DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on 5/5/09 has been entered.

Claims 4 - 8 are added new.

Claims 1- 8 are pending in the application.

Response to Arguments

2. Applicant's arguments filed on 5/5/09 have been fully considered and are persuasive see remarks on page 5, with respect to claims, 1- 3 the rejection under 102 (b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn and claims 1-8 are now allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Claims 1-8 are allowed.

Applicant's arguments (see page 5, of the remarks filed on 5/5/09. The prior art of record Immega et al., (US. 5,726,443) discloses as describing a set of color filters in column 15, lines 42- 48. Yet, this description in Immega et al. references Figure 5 of Immega et al. (reproduced below). As seen there, color filters 15 are placed on top of sensors 1 and do not serve to spatially color disperse the light, but rather merely filter out selected colors of the light prior to reaching the sensors 1. Immega fails to teach or suggest spatially color disperse the light, but rather merely filter out selected colors of the light prior to reaching the sensors 1, as commonly included in each of the independent claim 1 and 4, the prior art of record fails to teach either

singularly or in combination, fails to anticipate or render the above limitations obvious.

4. Any comments considered necessary by applicant must be submitted on later than the payment of the issue fee and to avoid processing delays should preferably accompany the issue fee. Such submissions should be clearly labeled, comments on statement of reasons for allowance.
